

The Brand:

Confourm / Bio-Memory Foam™

1. Quality (density): 4, 5 and 5 ½ memory foam
2. Safety: No unpleasant odors or toxic fumes like imitators
3. Technical Data
4. Testimonials
5. Warranty: Up to 10 year warranty on materials

Quality of materials:

- Made with patented “Clean” technology process – in Southern California
- Incorporates plant based materials technology to improve sustainability
- NOT temperature sensitive and stays flexible; even when it’s cold, unlike all others brands
- No unpleasant odors or toxic fumes, like almost all other brands.
- ALL materials made in U.S.A.
- Material is Anti-Microbial and helps prevention of dust mites and other allergens
- Eco-friendly process -3rd party verified – **Material is Hypo-allergenic**

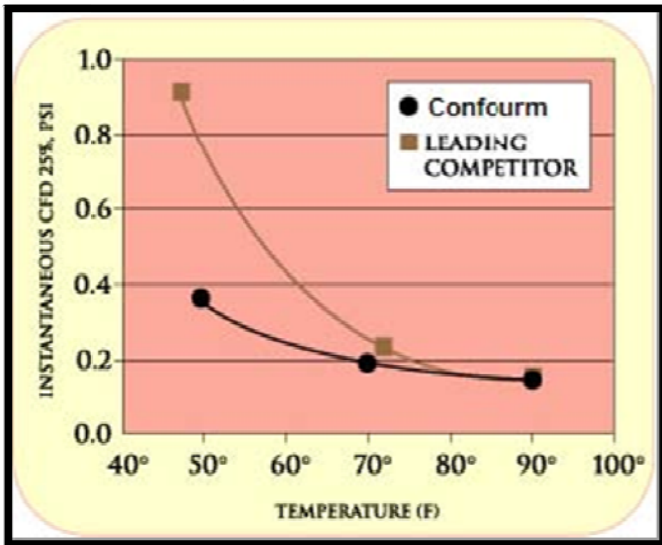

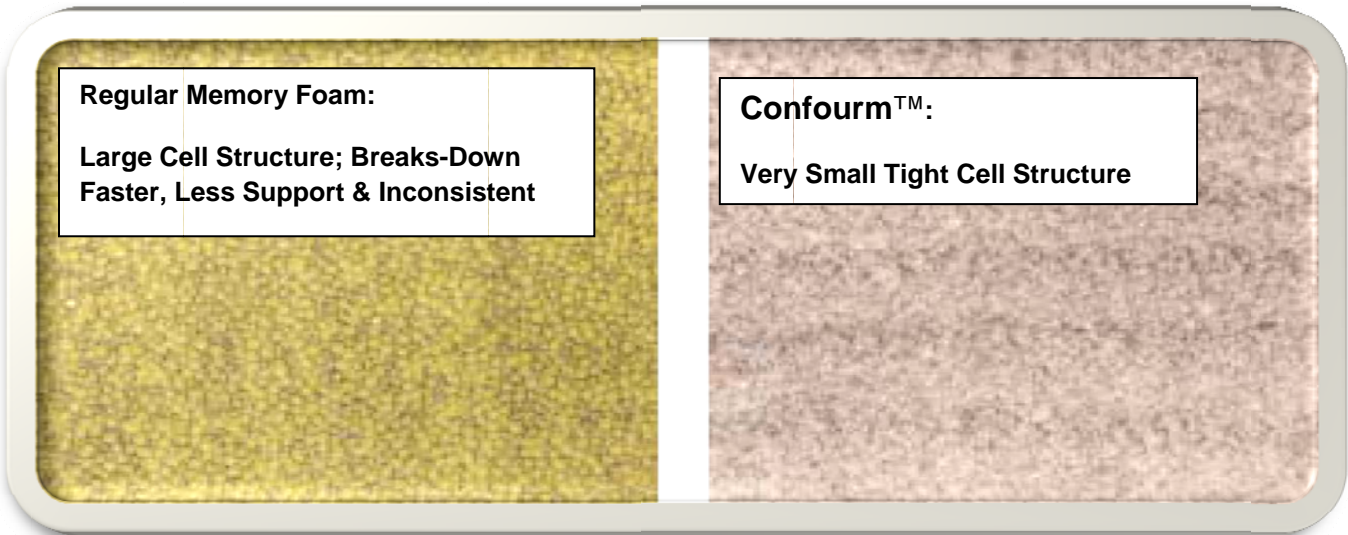

Safety: Chemicals **NOT** found in our Confourm™ Mattresses or Bio-Memory Foam:

- Formaldehyde
- DBPE
- BPE's
- CFC's
- Di-isocyanates
- Isocyanates
- Isocyanides

Many, and or all of the above chemicals are found in other mattresses and memory foams; particularly when manufactured off-shore.

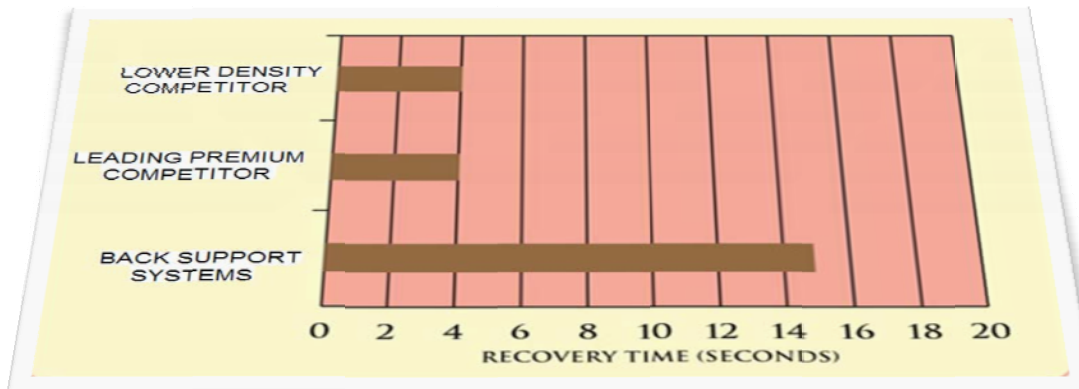

Confourm Bio-Memory Foam meets or exceeds California's TB 117 and TB 1603 Flammability Tests without chemicals.

Technical Data - Confourm™ Memory Foam: vs.

Confourm™ Bio-Memory Foam: in Graph (Left) shows how temperature does **NOT** affect the performance.

in feeling and comfort, with temperatures as low as 50 degrees (F)

Back Support Systems' products have immediate and measurable differences in pressure relief; for much longer memory (recovery) time.

Pressure Mapping: Supine “Face Up”

Confourm™ Memory Foam

8.7 MM Hg of maximum pressure for back sleeping

Notice very small red area only on back of head with using Confourm™ Memory Foam

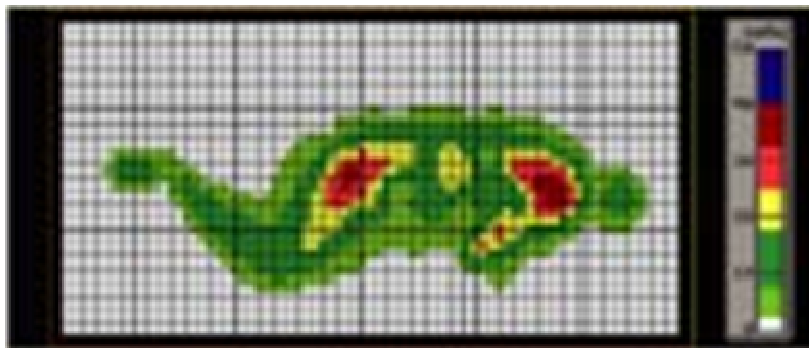

Premium Competitor

9.8 MM Hg of maximum pressure,

OVER 10% INCREASE

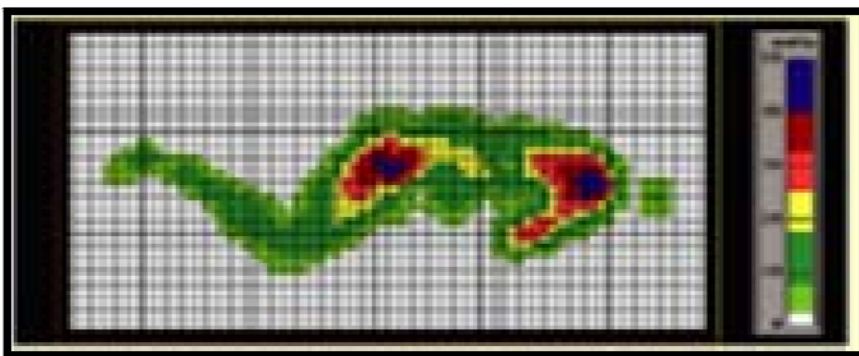

Pressure Mapping: Dorsal “Side Lying”

Confourm™ Memory Foam

11.8 MM Hg of maximum pressure for side sleeping.

Notice; small red area on shoulder and hip area, NOT going into the extreme pressure range of **BLUE** as with image below

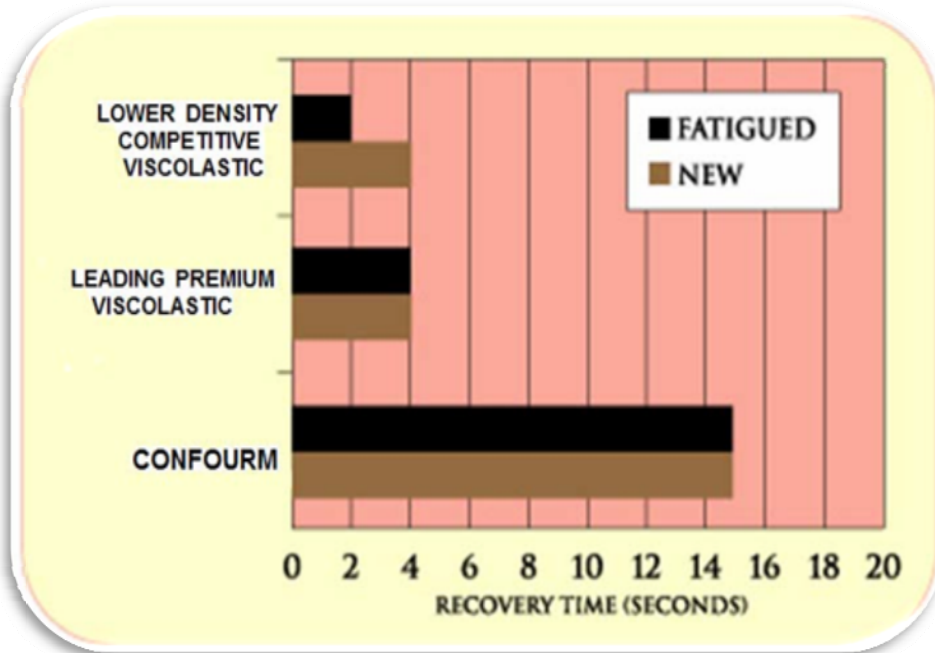

Premium Competitor **13.6 MM Hg** maximum pressure,

ALMOST A 20% INCREASE

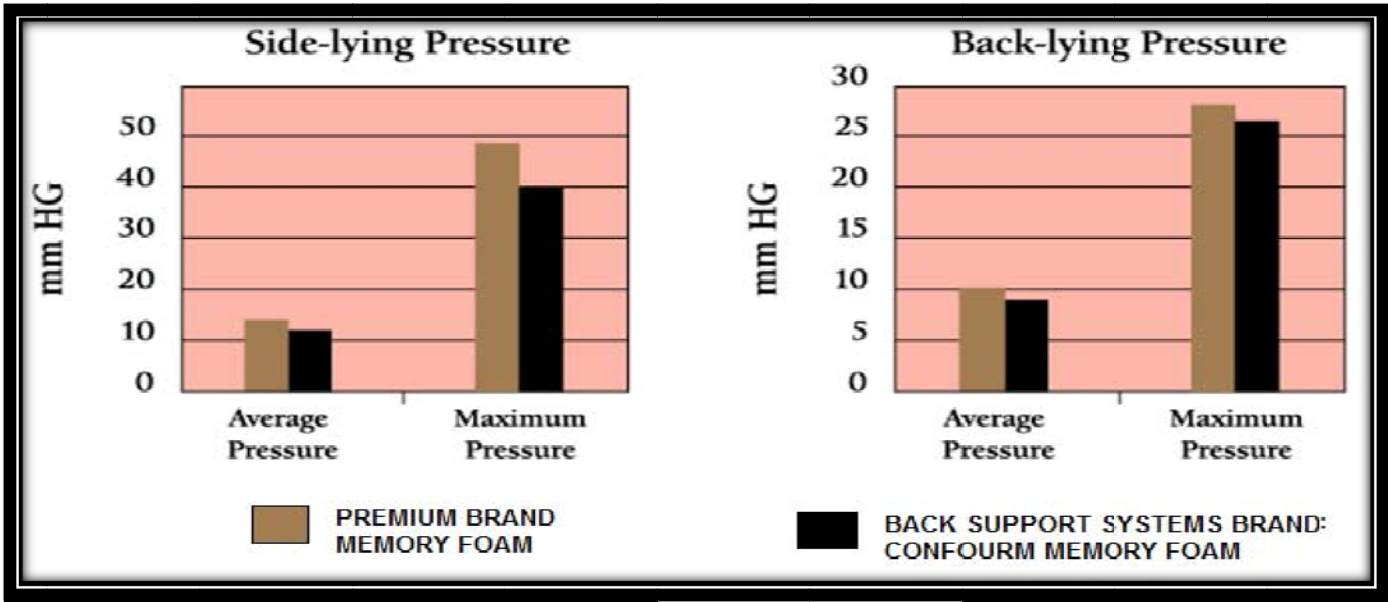

of pressure points – potentially means cutting off circulation and pain to the areas in **BLUE**

(Hg = Mercury)

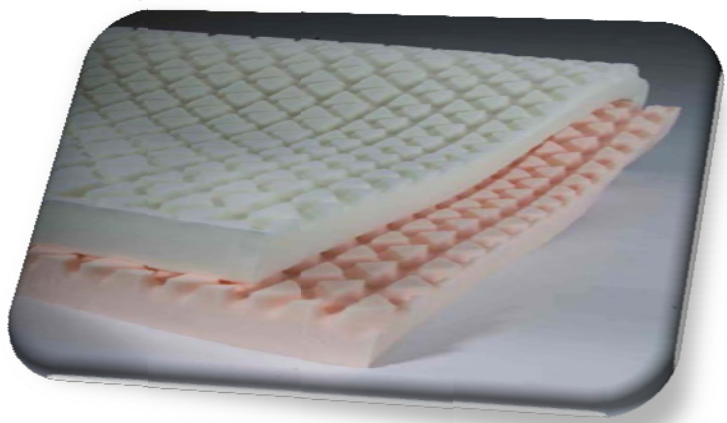

Back Support Systems Memory Foam will provide comfort which will last over years of use.

Virtually no "Body" impressions for the life of the mattress.

Confourm Air Channeling Technology In Detail

Testimonials

Beth Ritter: A critical care nurse who had shaking limb syndrome (SLS), by where after becoming unconscious, her legs and arms would shake so badly it kept her from ever getting a real solid night's sleep for over 5 years. After being on a Back Support Systems mattress, **her SLS stopped. It has not come back.**

Megan Martin: A Medical Software Engineer who could not sleep for any recorded length of time. Her typical sleep cycle was less than 4 hours. Over the years, she stopped counting the restless nights and accepted it as part of her life. The first night she slept on Back Support Systems topper- she slept 13 hours straight and even called in sick to sleep into the afternoon. **She now sleeps 8 hours regularly, and has for 2 years.**

Rubin Rencindez: The President of Wholesale Real Estate Co. had chronic back and neck pain for years. The first night of using a Back Support Systems mattress, he reported all major symptoms had disappeared. Within two nights, he reported his range of mobility increase by over 50% in one week. Even after Mr. Rencindez was involved in a traffic collision and reinjured all previous healing, doctors were baffled by his speedy recovery. After many tests and conclusive evidence, the doctors were surprised to learn **the bed was the reason he recovered so quickly.**

Barbara Osherman: Rejected or dismissed, as incurable by most physicians, her Fibromyalgia, constant pain from multiple vehicle collisions, and Arthritis. She was not able to sleep through the night. She tried Temper-Pedic and sent it back because it was too hard and she had a toxic reaction to smell. The first time trying a Back Support Systems topper, she loved it. The physician treating her, Dwight Cornish RPT, noted an incredible improvement in her overall health: mental, physical and emotional. Barbara said the topper **has been the only thing in her life that has truly helped her.**

Michelle Demree: A school teacher / healer, was a long time sufferer of common sleep disorders and could not sleep for extended period of time. First night sleeping on a Back Support Systems' mattress, she slept all the way through the night. **Her exact quote was, "I love my mattress!"**

Dr. William Wytttenbach: Has been sleeping on his Back Support Systems' mattress for over 5 year and still **loves it.**

Dr. Patrick Milliagan: Loves his Back Support Systems products and sells them through his practice.

Ernest Geradi: Has chronic hip pain. After his hip replacement surgery, he purchased a Back Support Systems mattress and **the first night he noticed a substantial improvement in reduction of his pain.** He loved it so much that within a week he bought other mattresses for some family members.

David Alan (musician for "The Cure"): Enjoyed Back Support Systems toppers so much that he bought them for his resort in Tonga. His exact quote: **"Dude! It's awesome!"**
