“The System”

The Angle Body System is the perfect way to relax! The picture is really worth a thousand words.

Benefits: Easy to use, Bio-Mechanically correct means incredibly comfortable. This neutral position or Zero-gravity helps increase circulation, which help promote healing and a better night’s sleep. Reduces stress on your back, which your normal pillows will NOT do, so it’s great for your back.

The Angle, the name of the individual leg support has helped millions get back to health and maintain it. A requirement for everyone who enjoys being completely supported and rejuvenated. You need this if you’re using regular bed pillows and reading or use a laptop in bed. It also works great on the couch too.

If you’re on a memory foam bed or something very soft the sinks a couple of inches, then you’ll need the small “System” if you under 5’6”. If your bed is firm then you’ll want to get a small “System” if your 5’4”.

Large fits 5’7” and up to about 6’4”. If you’re taller than 6’4” we have some solutions.

What is Memory Foam? How Does It Work?

California Pet Beds™ are made using an advanced, space-age material known as 100% Open Cell Visco-Elastic Polyurethane Foam or "Memory Foam" for short. It has the unique ability to mold to almost any shape and maintain support, then return to its original form. This makes California Pet Beds™ the most comfortable pet beds around. Its like sleeping on a cloud! The material is hypo-allergenic, anti-microbial, and helps prevent dust mites and other allergens. The equal distribution of weight eliminates pressure points, thus providing ultimate comfort and ease on the joints. This can make a huge difference in the comfort of your pet and the quality of their sleep. They will thank you for it!

Add Optional Healing Crystals or Magnets

You can add the powerful healing properties of crystals or magnets to your bed to allow your pet to achieve a higher level of harmony, relaxation and comfort. Learn more about these options on our web site.
